About

With over 90 years of industry experience, the Bott Group are world leaders in the manufacture and supply of quality van racking systems.

For small, medium and large vans, bott uno3 provides a safe, robust and affordable alternative to traditional wooden racking systems.

Whatever your trade, a bott uno3 racking solution can help you better organise equipment and improve your efficiency.

Pure, simple racking

A professionally fitted van racking system ensures a safe, reliable, well organised workspace and helps to create a great first impression with customers.

With durable, steel construction and a comprehensive range of features, the bott uno3 system offers quality and functionality, at an affordable price.

With a choice of 3 different types of shelving, removable storage cases, and an optional folding worktop and vice accessory; a bott uno3 solution can optimise your mobile working environment and help improve your overall efficiency - whatever your trade!

- Functional, strong & tough
- Quality with value
- Highest safety standards
- Efficient, mobile working
- Professional & tidy

For more information about bott vehicle conversions and services, visit: www.bottltd.co.uk

Before

After

Crash Tested

- bott uno3 racking has been designed with safety at the forefront. Weak, poorly secured racking can be extremely dangerous, even at low speed impacts.
- bott uno3 racking is crash tested to ECE R17 standards. The crash test simulates the collision of the vehicle with an obstacle at a speed of 50km/h. Independent experts conduct the tests with a fully-loaded vehicle. The load on the components are equivalent to those experienced during a traffic accident.
- The tests particularly focus on the fixing points to the bodywork, the floor and the side walls of the vehicle, as well as the overall construction of the van racking.
- We also pay close attention to all moving parts. The system is designed to keep tool cases and storage boxes firmly in place during transit and optional extras such as anti-slip mats and lashing straps, help prevent loads from sliding around.

Modules - Small vans - Offside

Module 1

- 1 x Basic shelf
- 2 x Low front shelf

Module 2

- 1 x bottBox shelf
- 1 x bottBox kit
- 1 x Low front shelf
- 1 x Basic shelf

Manufacturer	Model	Version	Dimensions (mm)	Module 1	Module 2
